

WINE & TAX

Let's talk
business
after hours
#ALTOgether

- Will you grow old before KSeF comes into force?
- You are a decision-maker? How to avoid fear of personal responsibility.
- Do you know what reliefs and tax savings should your company be benefiting from?
- Do you want to tame the chaos of PIT and ZUS changes and learn what already is certain, and what is only possible?

On the 15th of May, you will acquire valuable insights into immediate planning considerations and actions that may be deferred.

Join us for a special event at **Concept 13 restaurant** (DH Vitkac), right in the heart of the city. Amidst a delightful buffet and fine wine selection, we shall marvel at the Warsaw skyline while reflecting upon key tax matters. There will also be a possibility of exploring avenues for business development.

Experience live music while discussing most vital tax topics!

SEE YOU THERE!
